SUMMARY

Full Stack Developer with 2+ years of experience building scalable, secure, and high-performance web applications using **Angular**, **.NET Core / ASP.NET Core**, **C#**, and **SQL Server**. Experienced in designing and developing REST APIs, implementing authentication and authorization with **Microsoft Entra ID (Azure Active Directory)**, building **CI/CD pipelines** in **Azure DevOps**, and deploying cloud applications on **Microsoft Azure**. Strong background in frontend development, backend engineering, database design, API integration, automated testing, and cross-functional collaboration.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Python, Java, C++, C

Frontend: Angular, React, HTML5, CSS3, JavaScript, TypeScript

Backend: .NET Core, ASP.NET Core, Web API, REST API, Entity Framework Core, Node.js, Express.js, CQRS

Cloud / DevOps: Microsoft Azure, Azure App Services, Azure DevOps, Azure Pipelines, CI/CD, Configuration Management

Authentication / Security: Microsoft Entra ID, Azure Active Directory, OAuth 2.0, OpenID Connect, Role-Based Access Control (RBAC), Token

Databases: SQL Server, T-SQL, Stored Procedures, Database Design, Query Optimization, MongoDB

AI / ML: ML.NET, FastForest Classification, Groq (Llama 3.3), Google Gemini 2.5 Flash, LLM Integration, Prompt Engineering

Testing / Documentation: Cypress, Postman, API Testing, Swagger, Scalar, End-to-End Testing, Integration Testing

Tools / Practices: Git, GitHub, Agile, Scrum, Debugging, Code Review, Problem Solving

WORK EXPERIENCE

EUROMONITOR INTERNATIONAL | SDE-2 | FULL STACK DEVELOPER

Hybrid | Apr 2025 – Present

- Integrated **Microsoft Entra ID (Azure Active Directory)** into the EMMA platform, replacing **Duende IdentityServer**, and configured app registrations, scopes, roles, and optional claims using **OAuth 2.0** and **OpenID Connect**.
- Designed and implemented **Role-Based Access Control (RBAC)** using a relational database model to secure user access across frontend applications, micro frontends, backend APIs, and platform features.
- Built and maintained **CI/CD pipelines** in **Azure DevOps**, automating build, test, release, and deployment workflows to improve release consistency and reduce manual effort.
- Architected and deployed cloud-hosted applications using **Azure App Services**, **Azure Pipelines**, and environment-specific configuration management for scalable and reliable operations.
- Led migration from **Azure Front Door Classic** to **Azure Front Door Premium**, improving global routing, security policy enforcement, and **Web Application Firewall (WAF)** capabilities.
- Integrated **ML.NET FastForest** classification and **LLM APIs** (Groq Llama 3.3, Google Gemini 2.5 Flash) into a sprint analytics platform, enabling real-time risk prediction with 97.8% accuracy and AI-generated, role-specific recommendations for engineering teams.
- Validated **REST API** contracts using **Postman** and integrated API documentation tools such as **Swagger** and **Scalar**, improving service reliability and API consistency.
- Developed and maintained **Cypress end-to-end test suites**, reducing frontend regression issues and increasing release confidence.
- Authored and optimized **SQL stored procedures** and data transformation logic, improving query performance and backend efficiency.
- Reviewed code, debugged production and pre-production issues, and delivered fixes to improve system stability, performance, and maintainability.

EUROMONITOR INTERNATIONAL | SDE-1 | FULL STACK DEVELOPER

Hybrid | Feb 2024 – Apr 2025

- Developed scalable full stack features for the EMMA platform using **Angular**, **ASP.NET Core Web API**, **C#**, and **SQL Server**.
- Improved frontend performance and UI responsiveness by refactoring computationally expensive selectors using **Web Workers**, reducing main-thread workload.
- Maintained and enhanced **Azure Pipelines** to support reliable, repeatable, and automated CI/CD deployments across development and production environments.

- Built new **.NET Web API** endpoints using the **CQRS** pattern, improving separation of concerns, maintainability, and testability.
- Designed and updated **SQL Server** schemas, tables, and stored procedures, improving data integrity, backend performance, and query efficiency.
- Investigated and resolved application defects across frontend, backend, and database layers, improving platform stability and user experience.

EUROMONITOR INTERNATIONAL | SDE-1 INTERN | FULL STACK DEVELOPER INTERN Hybrid | Oct 2023 – Jan 2024

- Developed features for an e-commerce web application using **Angular**, **.NET Core**, and mock JSON data for frontend-backend integration and testing.
- Gained hands-on experience with **REST APIs**, component-based frontend development, backend integration, debugging, and Agile software development practices.

HACKATHONS

SPRINT RISK PREDICTOR

ML.NET, GROQ, GEMINI, AZURE DEVOPS, C#

Built an ML-powered **Azure DevOps** extension predicting sprint failure risk in real time using **ML.NET FastForest** classification with 97.8% accuracy. Integrated **Groq (Llama 3.3)** and **Google Gemini 2.5 Flash** to generate role-specific recommendations for Devs, BAs, PMs, and Scrum Masters. Designed a 7-tab dashboard surfacing capacity imbalances, goal misalignment, and concrete SP redistribution actions – enabling proactive mid-sprint decisions over reactive retros.

PROJECTS

E-COMMERCE APPLICATION

ANGULAR, TYPESCRIPT, JSON SERVER, RAZORPAY

Built an e-commerce web application with product listing, product detail pages, cart, checkout, and order summary features using **Angular** and **TypeScript**. Integrated **Razorpay** for payment processing and used **JSON Server** to simulate backend APIs. Added testing coverage to improve application reliability.

CERTIFICATIONS

- **AZ-900: Microsoft Azure Fundamentals**
- **AZ-204: Microsoft Azure Developer Associate**

EDUCATION

Bachelor of Engineering in Information Science and Engineering
RR INSTITUTE OF TECHNOLOGY, VTU | CGPA: 8.5/10

Bangalore, Karnataka | 2019 – 2023

ACHIEVEMENTS

- CodeChef Starters 82 Division 3 – Global Rank 186
- CodeChef Starters 83 Division 3 – Global Rank 271
- Codeforces Round 865 Division 2 – Global Rank 2402

CODING PROFILES

- LeetCode
- Codeforces
- CodeChef
- StopStalk

PUBLICATIONS

- Assistive Device for Deaf, Dumb and Blind Using Raspberry Pi – IRJMETS
